

Hello everyone!

Let me start by giving you a wonderful example of why we do what we do. Over a year ago someone bought in a little 8 week old puppy that could barely walk. She had been used as a football, a gentleman (called Mike) rescued her and bought her to us. We sent her up to Kingston where "Chance" was found to have broken her pelvis in 3 places. The vets up there called me and asked what we wanted to do with her, they couldn't set the pelvis as she was too young, cage rest was another option, but the follow up care would prove expensive, and there was always the put to sleep option. Well, we decided to take a Chance, I honestly thought she would be here for the rest of her life.

Lumpy has been with us for about the same time, Christine, one of our fabulous volunteers, had been feeding Lumpy, but it was very obvious that a litter of puppies was on the way! Lumpy came here where she gave birth to 5 gorgeous puppies, all we rehomed and spayed. Lumpy was our "meet and greet" dog with a fabulous personality.

The reason I am telling you all about these two is because today they both went to their forever home! A fantastic beach side mansion in Treasure Beach. These two precious girls would most definitely be dead by now, we kept them here because we all believe in the same thing, giving an animal a chance.

I just wanted to let you all know how very grateful I am for all your support, your friendships and believing in MBAH.

On behalf of all the animals, thank you!
